

# A letter from Fr. Robert

Friend,

Last year, with your help, we opened Beth-Tikva, a safe haven to keep children safe from gangs and malnutrition. From March 2024 to January 2025, I spent more than US\$25,000, the equivalent of C\$35,000, for housing, education, food, school tuition, hospital care, medicine, and more. Part of that money is from you and your family. For that, I am greatly appreciative of your support.

In one year, the children have shown improvement in their human, individual, and personal development. The grades are great. It is unfortunate today that the trouble in the country is not about to be over anytime soon. With the deportation of hundreds of thousands of young adults to Haiti, things are bracing to become worse.

I can't turn my back on those children. Being aware of children in need, as a human being, as a priest, and as a disciple of Christ, if I turn a blind eye, it is a sin. Not my word! It is the word of God in the letter of James 4:17.

The rent for the house is about to end in March. I need to renew for the year 2025–2026. I am counting on your support to keep those young men and young women as far as possible from the reach of gangs. Your support will be much appreciated. Whatever you can donate will make a difference.

Fr. Robert Pierre Louis
